Subject: Uber

I use Uber wherever I travel in the world and I want to use it at home in SC too. In South Carolina taxis are unreliable, usually dirty, and usually driven by seedy characters. Plus, if you call to order a taxi, good luck if you get a human being and you have very low chance of the taxi showing up if you happen to get through to a human being. Also, forget about hailing a cab on the street like in New York or any other big city. Where I live, in Greenville, I bet there are no more than 20 taxis.

Using Uber also keeps people from driving while intoxicated. Because the service is reliable, clean, and prompt, I know a lot of people (myself included) who take Uber rather than drive when going out at night when you will be drinking.

Remember, "There's nothing is powerful as an idea whose time has come." Uber's time has come.

Please reconsider the ban on Uber.

I have had a fantastic experience with Uber since it's arrival in Greenville, and would be very disappointed to see them go. I feel more comfortable in Uber cars than I ever have in a taxi. Please allow them to continue their operations in SC.

The cabs in Charleston are terrible. With Uber I'm ensured a safe ride home in a timely manner and I know exactly what it will cost.

Über is crucial for Greenville and making it easier to find an alternative to driving home after drinking.
